- ✓ Water Circulation Mechanism that Aids in Oxygen Supply
- ✓ Convenient Plant Aquarium Management via Smart App
- ✓ Experience Indoor Natural Environments and Emotional Well-being

k-biophilic.com

Fish provide nutrients to plants, and plants create a livable environment for fish—a small space embodying the vastness of nature.

Why?

What is Aquaphilic?

"Aquaphilic" combines "Aqua," meaning water, and "Philic," meaning affinity.

This eco-friendly aquarium brand brings the beauty and freshness of nature indoors, fostering symbiosis between plants and ornamental fish.
